MASTERING EPIGENETICS: FROM BASICS TO BREAKTHROUGHS

7-8 June 2024

ONLINE

Online Course

Monthly Fee: £199

Join the world's leading experts in epigenetics and gene expression. This course is designed for scientists, researchers, and students who want to master the latest techniques and breakthroughs in the field. You will learn how to analyze and interpret epigenetic data, understand the role of epigenetics in disease, and explore the latest research in the field. This course is the perfect way to stay up-to-date on the latest developments in epigenetics and gene expression.

Friday June 7

09:00-10:30 **EPIDEMIOLOGICAL ASPECTS OF EPIGENETICS** (1 hour)

09:30-10:00 **Introduction to the course and objectives**

10:00-11:30 **EPIDEMIOLOGICAL ASPECTS OF EPIGENETICS**

11:30-12:00 **Case study: Epigenetics and cancer risk**

12:00-12:30 **EPIDEMIOLOGICAL ASPECTS OF EPIGENETICS**

12:30-13:00 **Case study: Epigenetics and cancer risk**

13:00-14:30 **EPIDEMIOLOGICAL ASPECTS OF EPIGENETICS**

14:30-15:00 **Case study: Epigenetics and cancer risk**

15:00-16:30 **EPIDEMIOLOGICAL ASPECTS OF EPIGENETICS**

16:30-17:00 **Case study: Epigenetics and cancer risk**

17:00-18:00 **EPIDEMIOLOGICAL ASPECTS OF EPIGENETICS**

Saturday June 8

09:00-10:30 **EPIDEMIOLOGICAL ASPECTS OF EPIGENETICS**

09:30-10:00 **Introduction to the course and objectives**

10:00-11:30 **EPIDEMIOLOGICAL ASPECTS OF EPIGENETICS**

11:30-12:00 **Case study: Epigenetics and cancer risk**

12:00-12:30 **EPIDEMIOLOGICAL ASPECTS OF EPIGENETICS**

12:30-13:00 **Case study: Epigenetics and cancer risk**

13:00-14:30 **EPIDEMIOLOGICAL ASPECTS OF EPIGENETICS**

14:30-15:00 **Case study: Epigenetics and cancer risk**

15:00-16:30 **EPIDEMIOLOGICAL ASPECTS OF EPIGENETICS**

16:30-17:00 **Case study: Epigenetics and cancer risk**

17:00-18:00 **EPIDEMIOLOGICAL ASPECTS OF EPIGENETICS**

18:00-19:00 **Case study: Epigenetics and cancer risk**
